

Fusion 2015 App Instructions

Profile

Creating a profile allows users/attendees to share information, send each other messages and network with each other. The app can be linked with social media accounts (LinkedIn, Twitter, Facebook and Google+). A profile is necessary in order sync the Fusion app on several devices (tablet and smartphone).

Timeline

Provides real time updates of conference photos and announcements. It will also show messages and photo uploads of users.

Schedule

The schedule feature shows the timeline of presentations for the conference. It also provides the location of these presentations. It also allows the user to save the presentation they are interested in and create a schedule showing only the ones s/he is interested in, for easier viewing. It also has an option to set a reminder for it (instructions are also shown here).

Venue Map

Shows a layout of the Independence Level of the Grand Hyatt Hotel with locations of the different rooms.

City Map

This feature shows a map of some parts of Washington DC with markers of the venue for the conference, reception, and gala.

Creating a Schedule: (Note different instructions for iOS and Android bellow)

You may add and delete events to your schedule ("My Schedule") from three different locations in the schedule menu:

1. On the Full Schedule screen, where you can switch between days.
2. Searching for the specific presentation you are interested in. (Android only)
3. Filtering to list presentations by session name you are interested in.

Android

To add a presentation:

1. Click on the "plus" icon. This will allow you to bookmark it or add it to your schedule.
2. Alerts: you will be given the option to set an alert for the event or select the no-alert icon (to avoid an annoying buzzing sound).

To delete a presentation:

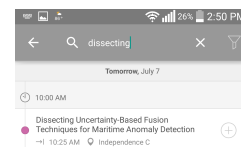

1. Open "My Schedule".
2. Tap the "checkmark" icon and click remove

Searching for a specific presentation:

You may also search for a specific presentation you want to add.

1. By clicking on the magnifying glass icon on the upper right hand side, this will bring you to the search menu.
2. Type in the presentation title (if you know it).
3. Alternatively, search for one of the authors and click on the author's name to reveal his/her presentations.
4. Then you may add the presentation to your schedule.

Filtering the sessions:

1. On the search menu, click on the filter icon on the upper right hand side. This shows the different sessions in the conference.
2. Select the session you are interested in then show results. It gives you the schedule of presentations under that session you just selected.
3. Then you may add the presentation to your schedule.

To view your schedule, just click on the calendar icon on the lower right part of your screen when you are in the full schedule list.

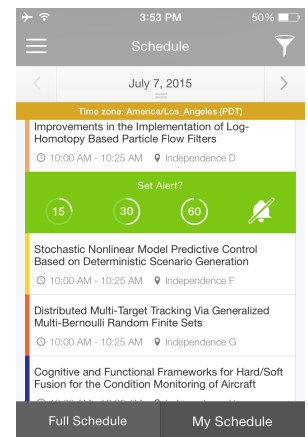

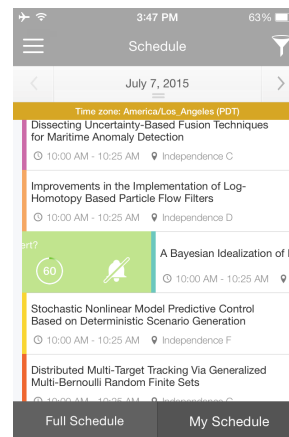

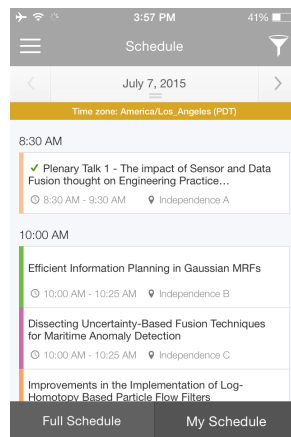

iOS

To add a presentation:

1. Swipe the selected presentation to the right.
2. Alerts: you will be given the option to set an alert for the event or select the no-alert icon (to avoid an annoying buzzing sound).

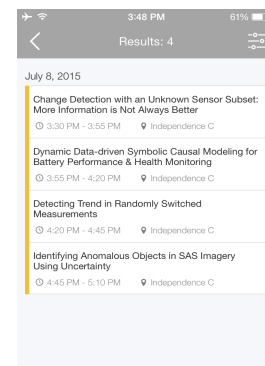

To delete a presentation:

1. Open "My Schedule" (optional)
2. Swipe the selected presentation to the left and click the Remove button.

Filtering the sessions:

1. Click on the filter icon on the upper right hand side. This shows the different sessions in the conference.
2. Select the session you are interested in then show results. It gives you the schedule of presentations under that session you just selected.
3. Then you may add the presentation to your schedule.

Searching for a specific presentation:

See this topic on the Android section above.
